22, serial number SM41XXX, as being made in 1982 The Ace numbers for that year started at SM40221 and ending at around SM43830, which was apparently the end of production.. I dont think he sold it at that particular gun show At the time, a clean used series 70 Gold Cup routinely sold for \$500-\$700.. I would think on a correct SM frame they would likely be in the \$5000-\$8000 range depending of course, on condition.. Overall a beautiful firearm with a low serial number I have only seen 3 of the Service Model Ace's in hand. 34bbb28f04 [Belkin Wireless G Universal Range Extender F5d7132 Software Piracy](#)
